

OLIVER WYMAN CAVOK

TRAINING COURSE

OP01 – A THREE DAY PRACTICAL TRAINING COURSE

# BUILDING AND MANAGING A PERFORMING SAFETY MANAGEMENT SYSTEM

## Developing an effective Safety Management System

**SMS is a systematic, explicit and comprehensive process for managing aviation safety risks. An effective safety management system when woven into the fabric of an organisation, becomes part of the culture and the way in which people do their jobs.**

This This course is aimed at people working within all aviation environments who are required to build, manage or directly support an SMS. By attending this course, you will gain a deep level of insight into how to develop, implement and manage an effective and performing SMS.

This course is highly interactive with examples and numerous practical exercises specifically designed to capture attention, reinforce learning and support attendees apply what they have learned back in the workplace.

CAVOK's training design and content is of exceptionally high calibre and heavily influenced by intelligence pulled from numerous practical assignments. Training solutions are delivered by skilled and passionate Aviation practitioners who have extensive depth and breadth of experience in aviation.
