

OLIVER WYMAN CAVOK

TRAINING COURSE

TC07 – A TWO DAY PRACTICAL COURSE

EFFECTIVE MAINTENANCE PLANNING

Understanding the requirements of maintenance planning

This course is aimed at people involved with aviation maintenance planning, including Maintenance Planners, Part M Continuing Airworthiness Managers, Part 145 Maintenance Managers and Contracts Managers. By attending this course, you will gain a deeper understanding of the requirements and essential aspects of the economic management of maintenance.

This course includes elements of regulatory requirements, principles of maintenance production planning, performance management and maintenance record requirements.

CAVOK's training design and content is of exceptionally high calibre and heavily influenced by intelligence pulled from numerous practical assignments. Training solutions are delivered by skilled and passionate Aviation practitioners who have extensive depth and breadth of experience in aviation.
