

EASA PART 145 FOR C RATED ORGANISATIONS OVERVIEW

Application of Part 145 in a C Rated Organisation

EASA Part 145 is the European standard for the approval of organisations that perform maintenance on aircraft and aircraft components. A component maintenance organisation requires a specific interpretation of the regulation that is customised to their business operation and environment.

This course is aimed at managers and anyone involved in Maintenance Operations and will provide a high-level overview of Part 145 regulatory aspects to consider specifically within in a C rated environment.

By attending this course, you will be able to understand the intent and requirements of EASA Part 145 regulation. Furthermore, you will be able to understand corporate and individual responsibilities that are required to meet compliance.

CAVOK's training design and content is of exceptionally high calibre and heavily influenced by intelligence pulled from numerous practical assignments. Training solutions are delivered by skilled Aviation practitioners who have extensive depth and breadth of experience in implementing EASA Part 145 regulations.
